## BUNTER TALKS POLITICS.

See "Bunton Now in Washington Looking After His Friends."

Washington, Oct. 1.—Dr. Bunton today discussed Kentucky politics with a "Star" reporter. Among other things he expressed the utmost confidence in the election of the Repub. in the state, and said:

"There are four tickets in the field—Repub., Populist, Silver and Gold and Democratic. The Populists, who will poll 16,000 votes, voted with the silverites last year, and yet were not the state. The Democrats will lose this vote of course in the coming election. While it is true that most of the gold men are associated with the Repub. in the last fall, I do not think that the presence of a gold Democratic ticket in the field will weaken the Repub. men. Many of the gold Democrats will repeat their action of last fall when it comes right down to the question of whether the free silver men are to win or not."

Senator Bunton arrived yesterday to a room to wait on Mr. McKinley. He will take up Mr. Bunn's case and continue his case there. When the President appears, then he will look around for some one with whom might possibly be associated.

THE BICYCLE. Gemini Hinkleville Has Been Identified.

No Light Shed on the Identity of the Swindler.

There have as yet been no developments in the Hinkleville mystery tendency to solve the name of the man.

Today, however, Sheriff J. M. Jones, of Lexington, Ky., disclosed he was. His description of the man, the pedals were not moved, and the cork was off one handle, and the child rode with the wheel he was man was riding.

M. Jones said nothing about the boy, but he telephoned to come to the wheel. The child had not been induced to sell the machine to the strange funeral car.

Lexington is a small place on the Mobile and Ohio road near Cedar, and it is probable the wheel was stolen.

## THE VACANCY

In the School Board Will Not Be Filled UNTIL THE REGULAR ELECTION

At Least It Looks That Way.

Notice. All members of the C. W. B. M. Society are requested to be at the First Christian church Saturday, October 2d, at 4 p.m.

MR. ROSE CONTINUES SEVEN PRO TEM.

The death of Secretary W. H. Brian, of the Board of Education, leaves a vacancy in the representation from the Second Ward. The school meets in regular session next Friday night, but at present it is not known what course will be pursued relative to choosing a successor.

It seems, from what a majority of the members have to say, however, that the vacancy will not be filled until the regular election in November. It has not been past, when a member died, been the custom to fill the first subsequent meeting to date that a vacancy exists, and to elect one to fill it at a meeting held two weeks later.

With this course to be pursued, however, it would result in the new member being sworn in but for one week, owing to the proximity of the regular election, unless re-elected at the November election.

It would be about a month until the election could be held by the board, and then after the November meeting the new member chosen at the regular election would take his seat.

Mr. C. C. Rose has already been elected Secretary pro tem, and he will hold this office until his successor is chosen.

Meanwhile several prominent gentlemen are mentioned as candidates on the Democratic ticket. The Rev. Messrs. Chas. Q. C. Leigh, George C. Walker, Alex. Kirk, and Fred. K. St. John, Leigh and Walker have both served before on the board.

"Speaking of rises adopted by different people to vary favor or favor with a court," remarked Justice Winchester yesterday, "I remember an amusing thing that happened in my court some time since."

"Two boys were warranted for shooting an old Dutchman in the forehead with a flint rifle, and on the day of the trial the county attorney and myself walked into the courtroom with the trial."

"We saw sitting over in one corner two stalwart men, each with a bay on his lap. The boys were quite large, but their fathers, as they afterward proved to be, were hugging them up to their breasts as if they were not yet out of their long clothes, and they were very quiet and child-like."

"Bring in the defendants," the attorney ordered, and each man arose and walked forward with a boy in his arms.

"Here they are, an' they ain't nothing but babies, yer honor," spoke up one. "We all began to laugh, and of course I had to dismiss the warrant on account of their tender years," as the newspaper reporter puts it."

"If you've ever noticed," said a prominent doctor, yesterday, "most duels occur at night. No matter how ill a person may be, if he or she lasts through the night, you can nearly always hope for a prolongation of life through the following day."

"This is because the excitement and bustle of the day has a tendency to keep the energies alert, and to set us a sort of stimulant. At night, when everything becomes quiet, there is a relaxation, or reaction, and the body is weaker and less able to bear up, hence dissolution is more apt to occur under these conditions than those that exist during the day."

Those who see on the laps of their friend's coats a button bearing a picture of the "Yellow Kid," need not fear that the lad has been revived. Those buttons are only one of the unique methods of advertising "Hoggs of Albany," which is to be one of the attractions at Morton's Opera House for next week. The "Yellow Kid" is the principal character in the comedy, and if every one who has a button attends the performance, there will be a crowded house to enjoy the play.

One of the Western Union Telegraph messenger boys says he is not an applicant for office under McKinley. When asked why, he replied that if he went at his usual rate of speed, his commission would expire before he got into office.

The "Courier-Journal" tells a joke on Col. Landrum, of Louisville, who owns the Mayfield Water works plant. He saw where the people of Graves were suffering for water, and telephoned his brother, Mr. John Landrum, who is superintendent of the Mayfield water works, to furnish gratis every vessel in Graves county with all the water they wanted. In reply he received a telegram from his brother something as follows: "You have made a big mistake in ordering free water. These silverites in Graves county are thin."

A pavement that sadly needs attention is the one in front of the Baptist church property on North Fifth street. In places it is entirely torn away, and many of the bricks have been carried off.

In company with the sheriff of Johnson county he started with several prisoners for Alton, their con-

sible for much of the prosperity of Paducah.

Did you ever stop to think how much work they have indirectly furnished for laborers in Paducah during the two years of their innumerable for the horses. At DuQuoin they learned that the first passenger train would go north in three days on the I. C. railroad just completed. At Tamworth they had to construct a coach train and boarded a coach attached to it. The same year he went up the Wabash river and bought a large load of corn at 95¢ a bushel for a tobacco firm. This corn was sold at \$1 a bushel, much of it on time.

### DISGRACEFUL POW-WOW

Is What the Murray Democratic Convention Was.

### A FACTIONAL FIGHT.

Causes It to Break Up Without Electing a City Committee.

### TRouble OVER A NEGRO VOTE.

Special Correspondence of the Sun.

The city Democracy of Murray met at the court house last night in an attempt to organize a city committee. As they have never had a committee for the town, from the start there seemed to be trouble brewing. The Coleman-Givens faction presented a slate for the committee, and the Jones' clique, a slate that attempts to regulate the north, and the fitness thereof, wanted a different committee to be elected, and one at a time. A vote was taken, and the Givens ticket carried by two votes. The Democracy of two of the Givens crowd was questioned, and in return the Givens people said there were voters on the other side who were not Simon pure; but it seemed they were trying to elect a gold bug ticket.

This precipitated a general row, a motes were made to adjourn and amid yelling, cursing and whooping, the meeting was broken up. So many is without a dry organization, the Democ's are no longer hurt into the faces of the Republicans of Calhoun county that they don't have "niggies" in their conventions; but it seemed they were trying to elect a gold bug ticket.

Dear reader, do you think it is rare over some terrible crime, now or over a departed good name, enveloped now in dense suspicion, or is it something else?

It is something else! Noah Franklin has seen that picture of himself, and it seems that he is a victim of blighting atrophy, for gaudily he has begun to fade into a shadow—a ghost.

The Republiques enjoyed it greatly. Whenever Uncle Bud Jones is to anything the majority is sure to against him.

Chris Miller, the noted gold bug racing in silver harness, questioned the Democracy of everybody except Dr. Young, who left the house and was thought to be a bolter at the time.

Frank Pool was enthusiastic Grace

man and had a razor up his sleeve for any man who opposed him.

Jo Grogan, Judge Cook's man Friday, was there looking for the popular side, and fell into the arms of the Grace clique.

Cal Ed Phillips, Chas. Jetton and others were noticeably absent. They are always on the winning side.

Billy Whittell, Bill Graham, Jim Cole and other Republiques of prominence were crowded up in the stairway of the court room and didn't dare to say a word. They just laughed.

Judge C. M. Snoot, who was chairman of the convention, was somewhat confused and said at the time that he was glad the blamed thing was over.

About the Metropolis Jail Being Full of Prisoners.

And the Judges All Too Lazy to Hold Circuit Court.

There has been considerable talk and newspaper criticism in regard to no court being held in Metropolis. The Metropolis "Journal-Republican," in explanation, has the following to say, after stating the reason neither of the three judges could hold court on last Monday, the day set for it:

"The jail was not found to be overflowing, but it now contains only eight prisoners, four of whom were placed there since the August adjournment. One of those in the jail the fall time is Mr. McElyea who was indicted for arson along with M. Peters. The other three were what thieves belonging to a gang of five, of which two were at large and the three were held until the two were apprehended. To try this case a witness had to be brought from Pontiac and instead of scattering the session through the week they adjourned until Monday.

"It is certainly in the name of justice due our able bench to concede to the statement of facts and also reasonable to admit that they are in position to ascertain all the facts which govern their actions and which, if known to us, would likely cause us to act as they do. On the other hand, it is due our estimable bar to say that no violent, overwhelming, riotous, warfare exists against Judge Vickers and no sullen, unprofessional, cowardly surlying is indulged in because our bar is too gentlemanly and too ethical to not frankly and openly express their dissatisfaction. Moreover we are credibly informed that an understanding has been had for a long time between the judges that Judge Robert would hold our courts after the assignment of territory."

"GRAVEYARD OF EUROPEANS."

"Almost incredible Mortality of Batavia, on the Island of Java."

Eliza Grahambolden, author of "Juriishki Days," contributes to the Century an article on "Down to Java." No Europeans live at Tandjol Pri, nor in the old city of Batavia, which from the frightful mortality during two centuries was known as "the graveyard of Europeans." The lands and business houses, the Chinese and Arab quarters, are in the "old town" before sundown and before they live in the "new town" empires, where every house is in a palace of its own and the avenues are broad and straight, and all the distances are magnificent. The city of Batavia, literally "fair meadows," grandly "the queen of the east," and without exaggeration "the gridiron of the east," dates from 1621, when the Dutch removed from Bantam, where quarreled between Portuguese, Japanese and the East India company had been disturbing to trade for 15 years, and built Fort Jacatra at the mouth of a river over which a cluster of islands sheltered a fine harbor.

Its position in the midst of swamps was unhealthy and the mortality was so appalling as to seem incredible. Dutch records tell of 87,000 soldiers and sailors dying in the government hospital between 1714 and 1753, and that more than 1,000,000 people died within the city walls between 1730 and 1752, the place at one time claiming over 40,000 inhabitants all told.

The people were long in learning that those who went away to the higher houses of their own construction, and who built

houses in the hills were free from the fever of the walled town surrounded by water, cut by stagnant canals, facing a harbor the mud banks of which were exposed at low tide. The city walls were destroyed in this century, the quaint old air-light Dutch buildings were torn down and streets were widened; and there is now a great out-of-town town of red-roofed, white-washed houses, with no special features or pretensions to make its street scenes either distinctive. Dutch or tropical. Modern Batavia has 100,000 inhabitants, less than a tenth of whom are Europeans. While the last century Dutch might have been brought from Holland again, a steamtramway starts from its door and thence shrinks its way to the farthest suburb, the telephone bellows from center to suburb and modern inventions make tropical living possible.—Century.

The wedding was a quiet affair, only a few friends being invited. The house was crowded. Their presents were many and costly, including an assortment of wines presented by Col. Don Gilberto, proprietor of Hotel Gilberto. We extend our congratulations.
